EDUCATION

University of California, Los Angeles (UCLA); Los Angeles, CA | GPA: 3.99/4.0

BS, Statistics and Data Science & BA, Economics

Expected June 2026

- Relevant Coursework: Economic Forecasting, Organisational Economics, Linear Regression, Statistical Models & Data Mining, Experimental Design, Entertainment Design, Statistical Optimisation, Monte Carlo Methods, Practice of Statistical Consulting

TECHNICAL PROFICIENCIES

Programming Languages: R, Python, SQL

Data Visualisation: ggplot2, Tableau

Graphic Design: Canva, Photoshop

Skills: Microsoft Office, Project Management, Video Editing

RELEVANT EXPERIENCE

Summer Intern

Singapore

K2 Carbon

April 2026 – June 2026

- Engineered an end-to-end data pipeline using Python and PostgreSQL to ingest and standardise public carbon registry data, transforming inconsistently formatted records into a structured database.
- Built a Metabase dashboard translating raw carbon registry data into interactive visualisations, enabling non-technical users to conduct exploratory analysis and identify market insights independently.
- Supported go-to-market strategy research across emerging voluntary carbon markets, tracking global standards and methodologies including standards such as Verra, Gold Standard, and Plan Vivo.

Project Liaison Advisor

Los Angeles, CA

Undergraduate Student Association Council (USAC), Community Service Commission (CSC)

June 2025 – Ongoing

- Designed and implemented analytics dashboards in Google Data Studio to **monitor funding utilisation** and **project outcomes**, identifying underused assets and reallocating resources to maximise program impact.
- Analysed and optimised resource allocation processes for 30+ student-led service organisations, ensuring equitable distribution of **\$300K+ USD** in annual funding and logistics support.
- Streamlined communication and onboarding workflows by developing an online bulletin board, tutorial videos, and structured training materials, **standardising operations** and reducing coordination time across all project teams.

Financial Controller Intern

Prague, Czech Republic

SIEMENS Advanta

June 2024 – August 2024

- Conducted **analytical case studies** on purchase volume, IT cost analysis, and manpower planning, leveraging Excel and AI-assisted analysis tools to identify **process-optimisation** opportunities within workflows.
- Shadowed cross-functional finance and operations teams to map core **enterprise processes** - including time booking, supplier analysis, and SAP-based invoicing - gaining insight into end-to-end cost management and reporting systems.

Special Projects Assistant

Los Angeles, CA

UCLA Student Development & Health

March 2024 - June 2025

- Collaborated with the *ResLife Professional Staff Recruitment and Selection Team* to analyse and improve hiring workflows, developing **administrative systems** that streamlined the selection process from **1,000+ student applicants** to final hires.

PROJECTS & AWARDS

LD58 Global Game Jam Competition – Mutiny’s Last Reward

October 2025

- Led end-to-end development of a 6-level strategy arcade game within a 72-hour production cycle, coordinating design, sound, and gameplay systems in a 2-person agile team environment, ranking top 7% overall and top 2.8% in the “Fun” category.

ASA DataFest Winner (Judges Choice)

April 2025

- Awarded **Judges Choice** at the **2025 ASA DataFest at UCLA** - a 48-hour hackathon analysing real-estate data provided by Savills. Selected from **80 teams (400 students)** across UCLA, UCSD, Cal State Fullerton, Pomona College, and UC Riverside for demonstrating outstanding analytical insight and storytelling.
